EDUCATION

Indiana University: Informatics B.S. | *Graduating **May 2026**, Cumulative **4.0***

Minor: Human-Centered Computing

Specialization: Interactive Graphical Environments

PAID WORK

Soma Barista | *February 2026 – Present*

Description: Crafts specialty espresso drinks with advanced techniques using coffee grinding and brewing equipment and supplies. Prepares and takes orders with the knowledge of a wide variety of specialty menu items, drink types, and modifications. Supports coworkers by keeping equipment stocked and clean at all times. Maintains a safe and healthy work environment by following organization and sanitation standards.

Reference: Bob Costello, (812)-668-2119

Luddy Teaching Assistant | *Fall 2025*

Description: Assisted learning during lab hours for intermediate programming skills for Unreal Engine 5 and Unity 6. Promoted student productivity during personal office hours. Graded student work and provided constructive feedback. Debugged student projects and emphasized alternative, computationally-sustainable algorithms.

Reference: Andrew Holland, hollanaa@iu.edu.

IU Game Development Camp Counselor | *June–July 2025*

Description: Guided students ages 12–18 through game development and programming, teaching of new technologies and applications for basic programming skills in Unreal Engine 5. Managed student safety across campus and encouraged a friendly community amongst programmers, artists, and other students.

Reference: Andrew Behringer, abehring@iu.edu

ABILI Retail Sales Associate | *July 2024 – July 2025*

Description: Communicated and serviced customers for fashion and sales, created relevant social media content, participated in company events and parties, including cleaning, preparing water and drinks, plating foods, and cleaning after party attendees

Reference: Stephanie Topologus, (812)-340-7453

UNPAID WORK

Cozy Crow Studios 3D Modeler | *September 2025 – Present*

Description: Develops 3D models for a story game in the IU Media School for publishing in 2026. Iterates and builds upon items such as background props and interactables. Builds foundations for materials and textures. Communicates with main game developers to build upon a universal understanding of aesthetics and style.
